

IAAE Canada F.O.A.M. or other Industry Conference Presentation

As an option for the Written Requirement Phase of the Accreditation Program, you have the option to prepare and present a topic at FOAM or another recognized industry conference.

To be considered as a candidate for the FOAM Conference presentation session, please submit your presentation general outline to michelle@iaaecanada.org

The Board of Examiners will review all submissions and announce those chosen to present.

Presentation Guidelines

- The 20-30-minute presentation package must include an outline, PowerPoint slides or similar and handouts.
- The topic must be submitted to the BOE for approval along with the conference being targeted for presentation a minimum of 4 months in advance.
- The topic must be relevant to the industry
- General outline of the presentation must be submitted to the BOE 1 month prior to the presentation
- The final presentation must be submitted to the conference organizers as per the conference requirements.
- The presentation will be given as part of the normal agenda of the conference and to all attendees.
- The presentation will be assessed by three members of the IAAE Canada BOE who will be in attendance. A copy of the full presentation is to be provided to the three examiners just prior to the start of the presentation.
- Assessment will be based on the Presentation Skills of the candidate; Quality of the Power Point Slides/other electronic medium, Organization/Flow of Information (introduction, main body, conclusion), Spelling and Grammar; Depth of knowledge of the candidate on the subject material (are you able to answer questions).
- After the presentation, the three members of the board of examiners will discuss the candidate's presentation and can provide immediate results to the candidate or many choose to discuss further. In any case the candidate will receive the results prior to the end of the conference.
